Work Experience

The Squirrel Technologies, Remote Aug 2025 - Present *Fullstack Developer*

- Developed **backend admin panels** and **analytics dashboards** to streamline **user management**, **content management**, and **application workflows**, enabling efficient **monitoring**, **operational control**, and **data-driven decision making** across **production applications**.
- Designed asynchronous job processing using **BullMQ** and **redis workers** for **notifications**, **scheduling**, and **long-running tasks**, improving **system scalability** and **responsiveness**. Integrated **Speech-to-Text (STT)**, **Text-to-Speech (TTS)**, and **LLM APIs** to build AI-powered conversational features, including a **real-time voice interview platform**.
- Converted **Figma** designs into responsive **React/Next.js** interfaces and collaborated in an **Agile** team to deliver **scalable**, **production-ready** solutions for **international clients** while following **Clean Architecture** and **software engineering best practices**.

Bluestock, Remote Feb 2025 - Mar 2025 *SDE Intern*

- Build and Integrated **REST APIs**, using **Node.js**, **Express.js** and **MongoDB/PostgreSQL** for production finetech applications..
- Optimized backend performance using **Redis caching** and **BullMQ workers** for asynchronous background jobs, **Improving response latency and Scalability**.

Skills

Programming Languages: Python, C++, SQL, JavaScript, TypeScript

Frameworks and Libraries: Node.js, Next.js, React.js, Express.js, fastApi, NestJS, Socket.IO

AI/LLM Development: LangChain, LangGraph, LangSmith, RAG Pipelines, Vector Databases, Prompt Engineering

Databases: Redis, MongoDB, PostgreSQL, MySQL, ORMs

Developer Tools: Git, GitHub, Linux, Postman, VSCode, Github Actions, Docker

Project Work

CodeCanvas [LINK](#) Aug 2025

- Developed a **real-time collaborative coding platform** enabling multiple users to **write, execute, and share code** simultaneously across multiple programming languages.
- Built an integrated **drawing panel** for visual problem-solving and query resolution during live sessions. Implemented **real time chat**, **multi-theme support**, and **separate collaboration rooms** using Socket.io for smooth, low-latency communication.

MindEase [LINK](#) Jan 2025

- Developed an **AI-powered mental wellness platform** using RAG, LangChain, and LangGraph, delivering **context-aware conversations** and personalized recommendations.
- Built real-time communication with **Socket.IO**, implemented **JWT-based authentication**, and designed **scalable backend services for secure, low-latency user interactions**.

Education

Aligarh College of Engineering and Technology 2022 - 2026 *Bachelor of Technology (CSE) ~ 85.6%*

- **Relevant Coursework:** Object Oriented Programming, Databases, Data Structures and Algorithms, Operating Systems, Computer Networks.

Achievements & Certifications

- **Hackathons:** 3rd Place at ACET InnovateX (15+ teams) / Certificate of Excellence at AuraFlix (Top 4/400+ participants).
- **Open Source Contribution** :. HacktoberFest 2025 , GSoc Contributor 24/25.
- **Github:** Contributed **10+** PRs to Open Source | **8+** PRs in HacktoberFest and get **Tshirt**.
- **Certificates:** **Linkedin** Autonomous Agent Development Certificate, **HackerRank** SQL, JS Certificate, **Ybi** AI Certificate.
